

ENGINEERING CONSIDERATIONS (NOT FOR UL REPRESENTATIVE USE):

These devices are for use in equipment where the acceptability of the combination is determined by Underwriters Laboratories Inc.

Conditions of Acceptability - The following items are to be judged with respect to specific applications in their end use.

1. These devices are not to be used for current interruption on grounding purposes.
2. These devices are for use where strain relief is provided as part of the equipment.
3. These devices are for internal wiring only in electrical equipment.
4. The mounting suitability of the Series .250 tabs shall be determined in the end-use equipment.

CONSTRUCTION DETAILS:

The details of construction are illustrated in the following catalog pages and accompanying photographs.

Material - All quick-connect connectors covered by this report may be constructed with copper alloy, C260 or C274.

Marking - Each connector or tab is marked with the manufacturer's name or trademark. The smallest unit cartons or reels are marked with:

1. The manufacturer's name or trademark.
2. Part No. Note: Leading zeros of Part Nos. are optional.
3. Wire sizes (connectors only).
4. A statement indicating that the connectors are "for use with Cu wire" or equivalent, (connectors only).
