

Datasheet

RS Pro 64 Way 2.54mm Pitch, Straight DIN 41612 Connector, Socket, Solder

RS Stock No: **542-4669**

Product Details

RS Pro straight connector is manufactured to meet high quality of DIN 41612 standards. This connector is used for interconnecting all 19 Inch Eurocard racking system. The edge connector provides connection between plug in cards at straight angle to backplane wiring. It has 64 female sockets for precise connection. The design of this contact increases reliability and reduces insertion force, by extending connector life. This edge connector has solder termination and 2.54 mm pitch. It is current rated for 4 A. Its typical applications include telecommunications, data communications, measurement and control systems.

Features and Benefits

- Straight connector
- Manufactured to a high quality standard to DIN 41612
- For interconnecting all 19 Inch Eurocard racking system
- Provides connection between plug-in cards at right angle to backplane wiring

ENGLISH

Specifications:

Body Orientation	Straight
Gender	Female
Mounting Type	Through Hole
Number of Contacts	64
Pitch	2.54 mm
Termination Method	Solder
Standards Met	IEC 60603-2; UL Listed; CSA Certified
