

RÉSITAINER

GREEN RESILEX® P WHEEL

STRONG POINTS

- ☛ Low starting effort.
- ☛ 5-year bonding guarantee.
- ☛ Rigid and easily manoeuvrable brake.
- ☛ High degree of resistance to abrasion.

Materials handling castor

APPLICATIONS

Manageability of a hard tread with all the advantages of rubber. High degree of elasticity (resilience). Quiet wheel owing to the use of super-elastic rubber.

Non-marking green colour.

CASTOR ASSEMBLY: • Very thick zinc-plated bichromate pressed sheet steel. • Swivels on two rows of steel balls, lubricated and protected by a seal.

WHEEL: • green Resilex® P: roller bearing with a demountable axle. • High degree of resilience.

LOCKING: • **MB** • Meta-bloc: rear brake, double-action: wheel and swivel. • Steel pedal.
