

**COMMUNICATIONS, DATA,
CONSUMER DIVISION**

**Connectors
for Consumer Applications**

ABOUT FCI

Created in 1989, FCI - an Areva Group company - rapidly secured its place among the world's top three manufacturers of connectors and interconnect systems. With a turnover of 1.29 billion Euros in 2004, FCI currently operates in 30 countries where it covers the following markets: communications, data, consumer, industrial, automotive and electrical power interconnect. The company employs around 13,000 staff worldwide.

FCI CONNECTORS

HOW TO USE THIS GUIDE

Welcome to the Connector selector guide for consumer application. This guide will help you to choose the right product for the type of connection you are looking for.

Here you will find an overview of each of our major product lines dedicated to consumer applications together with a list of some of the most popular parts within that connector family. Using those part references, you can go directly to FCI's home page on the internet, enter the part number and see full data sheets and drawings for that part. We also indicate the link to the landing page in our interactive catalog where you can obtain more information for these and other part numbers within each family.

Select the type of connection p4 & 5

Check the different proposed pages

Enter the part reference in FCI web site

Or go directly to the landing page

Modular Jacks

> Features

- Right Angle or Straight
- Through mount or SMT
- Cat3, Cat5 performance category
- 4, 6, 8 positions, fully or selectively loaded
- Single to Stacked Multi-ports
- Shielded or non-shielded
- Magnetic option, with and without LEDs
- Flanged or flangeless versions
- Inverted latch options
- Standard, raised or low profile versions
- Snap or diamond pegs options
- RoHS compliant

> Applications

- Modems, Fax machines, Phone line security systems, Telephones, Set-top boxes, Multimedia systems

USB

Universal Serial Bus

> Features

- USB 2.0 compliant, speed to 480 Mb/sec
- Type A (Host) receptacles, 4 position
 - Through hole and SMT versions
 - PCB mount options: Position, orientation, hold-down.
 - Panel fixing and grounding options
 - Additional sensor contact versions
 - Double deck, 8 position version
- Type B (peripheral) receptacles, 4 position
- Mini USB receptacles, 5 position
- Plug kits for overmold cable assembly
- USB + power versions available
- RoHS compliant

> Applications

- Printers, external drive units, monitors
- Digital cameras, TV's, set-top boxes
- Modems, keyboards

HDMI

High Definition Multimedia Interface

> Features

- Type A receptacle with 19 positions. Meets HDMI spec1.1
- Metal shield for better EMI
- Speed to 5Gbps uncompressed single transmit rate.
- Backward compatible with DVI
- SMT with a panel-mount flange or without panel-mount flange option.
- Low impedance mismatch
- RoHS compliant, 30u" Au plating in contact area, 100u" pure tin plating in solder tail
- Simple & flexible design

SATA

Serial ATA I/O

> Features

- High density serial data transmission at 1.5 to 3.0 Gb/sec.
- Compliant with SATA 1.0a standard
- Signal and power combined device I/O
- 2 differential pairs signal (7 pins)
- 3 different voltage levels power (15 pins)
- Signal plugs for internal cable connection
- Combined signal / power receptacle for direct device plug-up
- Guide pegs for blind mate
- First-Make-Last-Break for hot plugging capability
- Through hole and SMT versions
- Solder hold-down / harpoon options
- RoHS compliant

> Applications

- Next generation disk-drive connection
- Equipment using an internal disk drive unit
- Video equipment, set-top boxes, HDTV

Mobile I/O Sliding

> Features

- Blade on beam contact technology
- Optional charger contact configuration
- Shielded receptacle for a better EMC & EMS performance
- SMT solder with a good coplanarity
- Available in 18, 22 and 24 positions
- Polarized docking station configuration available in 34 positions
- RoHS compliant

> Applications

- Mobile phones
- PDA, Smart phones

Mobile I/O Compression

> Features

- 0,8 mm pitch I/O system
- High reliability and durability performance with compression contact technology
- High temperature plastic compatible with wave soldering or IR process
- Easy pick up and place
- SMT solder with good coplanarity
- Shielded receptacle for a better EMC and EMS performance
- RoHS compliant

> Applications

- Mobile phones
- PDA, Smart phones

Flash Memory Cards

> Features

FCI offers a wide range of connectors suitable for:

- CompactFlash: Headers and card kits, wireless options
- Secure Digital: Headers, push-push, normal type
- Multi-Media Card: Headers, push-push, normal type
- Mini Secure Digital: Headers
- T-Flash : push-push Headers
- 5 in 1 : SD,MMC, xD, MS, SM, Normal type header
- RoHS compliant

> Applications

- PDA's
- Set-top boxes
- MP3 players
- Mobile phones
- Digital cameras
- DVD players
- High-end TVs
- Hand-held devices utilizing socketed flash memory

miniSD™ Card Headers

PC Card Headers

> Features

- Conform to PCMCIA and CardBus standards
- CardBus PC Cards can meet high signal transmission requiring bandwidth (32 bits) and clock rate (33 MHz)
- Suitable for type I, II, III, 3.3 and 5V Standard and CardBus PC Cards
- Various stand-off options available
- Single and double deck
- Eject and non eject mechanism available
- Through Mount, SMT In-Line, SMT Staggered, Flex or patented SMT Vertical Transition Board versions available
- Optional EMI metal shield cover (CardBus)
- RoHS compliant

> Applications

- Set-top boxes, digital TV, home entertainment devices, PVR

The Header is connected via a vertical transition PCB that plugs into an SMT receptacle previously soldered on the main board

ROCard™ and Wireless ROCard™ PC Card Kit

> Features

- Hermaphroditic stainless steel material with (matt) surface finish
- Conform to CardBus and PCMCIA standards
- Snap fit design allows easy assembly and low applied cost (no welding or adhesive)
- Optional label recess & insulator
- Variable I/O configurations (4pos, 15 pos) available
- Standard and customized antenna covers for wireless application
- 0, 0.3, 0.6 mm or custom PCB offset for receptacle connector
- 3.3 or 5V keyed
- Compliance to PC Card standard torque and bend tests
- Extreme ruggedness
- Easy pre-positioning of shields and simple parallel closing movement
- Suitable for manual, semi-automated or automated assembly
- RoHS compliant

> Applications

- Set-top boxes, digital TV, home entertainment devices
- Digital cameras and printers

ExpressCard™ System

ExpressCard Module Card Kit

> Features

- Meet high-speed electrical requirements as outlined in ExpressCard™ Standard
- Simple beam-on-blade contact interface is rated for up to 10,000 cycles
- Single-row, in-line solder tail configuration for easy soldering
- Longer power and ground contacts on the module connector provide first-mate and last-disconnect in relation to signal contacts.
- Snap-together module design enables card assembly without requiring the use of adhesives or ultrasonic equipment
- Modules provide EMI/ESD contact areas, notches to facilitate optional security lock, and a finger grip ridge for manual module removal
- ExpressCard™ technology will replace PC Card and CardBus technology in desktop and notebook PCs
- RoHS compliant

> Applications

- Multimedia - TV tuners, PVR
- Adapters - Consumer memory cards
- Set-top boxes

ExpressCard™ System

ExpressCard Host System

> Features

- Meet high-speed electrical requirements as outlined in ExpressCard™ Standard
- Simple beam-on-blade contact interface is rated for up to 5,000 cycles
- Single-row, in-line solder tail configuration for easy soldering
- Longer power and ground contacts on the corresponding module connector provide first-mate and last-disconnect in relation to signal contacts.
- Available with either card push or push rod ejection mechanism and with various standoff heights
- ExpressCard™ technology will replace PC Card and CardBus technology in desktop and notebook PCs
- RoHS compliant

> Applications

- Set-top boxes, digital TV, home entertainment devices

BergStik® / Dubox™ / Quickie® 2.54 mm Modular System

> Features

- Versatile 2.54 mm modular system includes board-to-board, wire-to-board and flat cable interconnects, offering complete design flexibility
- Range: 1x2 to 2x36 positions
- Selective plating is reliable and economical
- Easy part number selection at FCI Basics+ web site
- Bergstik unshrouded headers available in custom configurations
- RoHS compliant

BergStik®

> Applications

- Electronic equipment or devices requiring a parallel, planar or perpendicular board-to-board, wire-to-board or flat cable interconnects

High Density .050" Pitch Connector System

> Features

- Exclusive Rib-Cage™ multi-point receptacle contacts provide optimal reliability in high vibration and shock-prone applications.
- High density 1.27mm (.050 in.) x 1.27mm (.050 in.) system for connecting parallel PCBs
- Multiple stack height options
- Polarization option prevents mis-mating
- Surface mount and through-hole attachment options
- RoHS compliant

> Applications

- Set-top boxes
- Multimedia system

PHEC

> Features

- 1.27 mm spacing
- 30 to 120 positions available
- Termination : solder & SMT (receptacle only)
- 1.3 mm allowed mis-alignment
- Multi pieces on the board
- Housing design robustness
- Closed bottom prevents flux from moving up
- Low insertion force and high hertz stress
- Wiping length : 2.4 mm
- RoHS compliant

> Applications

- TV, LCD, PVR, DVD and CD players, Set-top boxes

Conan® 1.0 mm and BergStak® 0.8 mm High Density, Board-Stacking Connectors

BergStak® 0.8 mm system

> Features

- Parallel board-to-board interconnects
- Surface mount
- Blade-on-beam contacts allow "peeling" and prevent "stutting"
- BergStak® 0.8 mm pitch connectors offer 5 mm-16 mm stack heights and 40-200 contacts (in increments of 20)
- Conan® 1.0 mm pitch connectors offer 4.15 mm-7 mm stack heights with options for 9, 11, 15, 21, 25, 31, 41, 51 or 69 contacts. Snap together for sure mating
- Reliable & economic selective plating
- Tape & reel or tube packing (with or without cap)
- RoHS compliant

> Applications

- Mobile phones, PDA's, Pagers
- Digital cameras, scanners
- Mobile, personal and high end computing

Floating Board-to-Board

> Features

- BTFN (1.25 mm pitch), BTFW (1.0 mm), BTFE (0.635 mm)
- Surface mount and Through mount versions
- Straight and Right Angle versions
- Reliable mechanical performance due to wide floating allowance (in pitch, width and Z direction)
- Easy handling due to rigid guiding design
- RoHS compliant

> Applications

- CD and MD players, chargers, VCRs, DVD and CD players, Set-top boxes, Satellite tuners
- CCD and CRT TVs

Miniature Board-to-Board

> Features

- 2 pieces board to board system
- 0.95 and 1.5 mm stacking height
- 0.4 and 0.5 mm pitch, dual row
- Small PCB outline dimensions
- RoHS compliant

0.4 mm

> Applications

- Mobile Phones, PDA, Smart Phones, Digital Cameras, PVRs
- Parallel board to board configuration

Compression connectors

One-piece board to board

> Features

FCI provides a wide range of SMT miniature compression connectors. With different pitches, stacking heights and number of contacts, the one-piece board-to-board connector range from FCI will cover most of your needs.

- RoHS compliant

> Applications

- Mobile Phones, PDA, Smart Phones : LCD and keypad
- Digital Camera, PVR
- Applications involving spin motor : HDD, DVD, CD-drives

Main Products

Battery Connectors

> Features

- Horizontal configuration
- Pitches from 2,5 to 3,5 mm
- Using spring contacts or spring loaded contacts
- 2 to 6 contacts available
- RoHS compliant

> Applications

- Mobile Phone : battery and antenna connections
- Board to board connections : Right Angle
- PDA, Smart Phones
- Digital cameras, PVRs

FFC - FPC connectors

> Features

- Suitable for FFC / FPC / CIC cable
- 0.30 - 0.50 - 1.00 - 1,25 mm pitch sizes
- Highly reliable Gas Tight High pressure (GTH) contact system
- Zero Insertion Force (ZIF) and Low Insertion Force (LIF) options
- Straight and Right Angle versions
- Surface Mount and Through Hole
- Upper or lower contacts options (Right Angle)
- RoHS compliant

> Applications

- LC Display to Board connections
- Interior Automotive electronics
- Membrane Switches
- DVD / HDD connection

SOCKETS

> Applications

- Almost every consumer appliance is using sockets. Different form factors are available at FCI, all RoHS compliant.

DILB Sockets

> Features

- 2.54 mm grid
- Open Frame
- 8 through 42 contacts
- Hi-Rel multi-finger contacts
- No solder wicking or flux intrusion
- End-to-End and Side-to-Side stackable

SOJ Sockets

> Features

- Available in 28, 32, 40 and 42 pin versions
- Design incorporates a central pick-and-place tab
- All solder joints are 100 % inspectable
- Work with a standard PLCC extraction tool
- Same footprint as the device they socket

PLCC Sockets

> Features

- Available in surface-mount and through mount configurations.
- 20 to 84 contacts
- Low-profile design minimizes overall height
- Polarization pegs available in the surface-mount connector ensure proper positioning of socket to PC board
- Inspection windows in surface-mount configuration allow for inspection of solder joint

INNOVATIVE PRODUCTS

> Applications

- Mobile Phones, PDA, Smart Phones

Camera Sockets

> Features

- Helps to automate assembly process
- Increases system performance
- Reduces total applied costs
- Different pin configurations, pitch and size available

Thin Coax Cable Connectors

> Features

- Verified signal integrity
- Assembles through a 4 mm hinge diameter
- Reduced applied cost
- High cable retention and durability (>200k cycles)
- 0.3 mm pitch

BEST PROVEN
SOLUTION FOR ROTATING APPLICATION

With manufacturing facilities in over 40 countries and a sales network in over 100, AREVA offers customers technological solutions for highly reliable nuclear power generation and electricity transmission and distribution.

The group also provides interconnect systems to the telecommunications, computer and automotive markets.

These businesses engage AREVA's 70,000 employees in the 21st century's greatest challenges: making energy available to all, protecting the planet, and acting responsibly towards future generations.
