Datasheet

315A rotary Switch, IP65

RS Stock number [733-5653](#)

Description:

Battery Isolation switch

For automotive, traction and marine applications. For security reasons spare keys are not available

12/24V dc isolation switches provide simple and effective disconnection of battery banks from equipment for safety, security, servicing or operation

The heavy duty switch has a fixed T-handle operation (fitted after installation in panel). The medium duty switch has an actuator, which is removable in the off position

The keyed isolator has a chrome finish and the key is removable in either position

RS, Professionally Approved Products, gives you professional quality parts across all product categories. Our range has been testified by engineers as giving comparable quality to that of the leading brands without paying a premium price.

Professionally approved products.

Specification:

- Protection Degree: IP65
- Temperature of use: -30 C, +80 C
- Cover Material: Metallic
- Handle Material: Metallic
- Weight: 400g
- Handle: Red Colour
- Cover: Black Colour

Power Circuit:

- Connection: Not Polarized
- Ratings: 315 / 2500A(10 sec)
- Maximum Voltage of use: 48VDC
- Terminals Diameter: M10
- Tightening Torque: 0.9 0.1 daN.m
- Available length of terminals: 3.5mm

Dimensions:
