

## Datasheet

# RS Pro Straight 50 $\Omega$ RF Adapter BNC Plug to UHF Socket 300MHz

RS Stock No: **790-2802**

## Product Details

RS Pro straight RF adapter has BNC plug and UHF socket connecting ends, with impedance of 50  $\Omega$ . A coaxial adapter has brass body, PTFE insulators and gold plated centre contacts. This 300 MHz adapter features nickel plated brass body.

## Features and Benefits

- Nominal impedance of 50 $\Omega$
- Nickel plated brass body
- Teflon insulators

### Specifications:

|                       |                        |
|-----------------------|------------------------|
| Adapter Type A        | BNC                    |
| Adapter Type B        | UHF                    |
| Adapter Type          | BNC Plug to UHF Socket |
| Body Orientation      | Straight               |
| Body Plating          | Nickel                 |
| Contact Material      | Brass                  |
| Contact Plating       | Gold                   |
| Gender A              | Plug                   |
| Gender B              | Socket                 |
| Impedance             | 50 $\Omega$            |
| Length                | 31.6 mm                |
| Operating Frequency   | 300 MHz                |
| Body Material         | Brass                  |
| Insulation Material   | PTFE                   |
| Operating Temperature | -20 to +80°C           |
| Voltage Rating        | 500 V                  |
