D-Subminiature Connectors

DESCRIPTION

FCI's D-Subminiature connectors are part of an industry standard for applications requiring robust and reliable connectors. These D-Subminiature connectors are one of the most popular Input - Output interconnects, addressing a wide variety of applications in Telecommunications, Data, Consumer, Industrial, Military, Instrumentation and Medical markets. Since many years FCI offers a wide range of D-Subminiature connectors to meet all design requirements, and to address increasing needs for proven connectors for less demanding applications, FCI developed the D-Subminiature Economy Range.
