

# INDUSTRIAL MECHANICAL BUZZERS

## Acoustic Signals Industrial Buzzer > Adaptahorn Series

### Product overview

The Adaptahorn is a heavy duty, weatherproof vibrating buzzer, giving a high decibel, low frequency signal with a low current consumption. The units are completely assembled, feature

convenient plug-in assembly and include a volume adjustment set screw on the front cover. The die cast housing has a corrosion-resistant powder epoxy finish. The back box is pre-tapped at 3/4" NPT (M20 adaptor available upon request) The unit is Ideal for a wide range of general signalling applications.

### Features

- High output penetrating sound
- Volume control
- Durable, long life mechanism
- Will function at -20% to +10% of nominal voltage.
- Continuously rated
- IP65

### Material

Zinc Alloy

Code No:	Voltage:	Frequency:	Current:
