51-250	\$27.00
251-500	\$25.00
501-1000	\$23.00

MSRP **\$39.95**

The BeagleBone Breakout provides easy access to BeagleBone components and test points during troubleshooting procedures. When it comes to debugging BeagleBone boards, access to some test points and components on BeagleBone boards and their capes are very limited. The BeagleBone Breakout cape solves this problem by separating BeagleBone and its cape. Two cutouts of BeagleBone board shape are made to provide visibility to hidden test points and components. Each cutout is equipped with a set of two long-pin connectors for easy removal.
