

Network Surge Suppressor - Essential protection for TV/VCR coaxial lines

MODEL NUMBER: DCATV

Highlights

- Complete dataline (F coaxial) surge protection
- Protects against the effects of electrostatic discharge, faulty wiring and lightning
- Lifetime product warranty
- Heavy duty grounding lead

Description

Tripp Lite's DCATV offers type F coax line surge suppression for satellite receivers and broadcast antennas. Convenient coax input and output connections accept standard type F coax wiring. Surge suppression is handled with balanced arrays of high-speed avalanche diodes that divert excess energies created by electrostatic discharges, faulty wiring or lightning. Tripp Lite network surge suppressors reduce blown interface connections by safely shunting dataline surges to ground. Six inch heavy gauge grounding lead connects to designated grounding lugs. Lifetime warranty. **Not for use with cable modems.**

SUPPRESSION: 1 set type F coax jacks, protects center and shield, 7.5V clamping

Features

- DCATV offers type F coax line surge suppression satellite receivers and broadcast antennas. **Not for use with cable modems.**
- Type F coax input and output connections
- Surge suppression utilizing high speed avalanche diodes divert excess energies on the network to ground
- 6 inch heavy gauge grounding lead connects to designated grounding lugs on protected equipment
- Lifetime product warranty

Specifications

OUTPUT	
Circuit Breaker (amps)	750
INPUT	
Recommended Electrical Service	120V, 230V
Input Connection Type	Type F coax

Tripp Lite
1111 W. 35th Street
Chicago, IL 60609 USA
Telephone: 773.869.1234
