RS Pro Insulated Crimp Bootlace Ferrule 18mm Pin Length

Product Details:

RS German Colour Range Crimp Bootlace Ferrules

German colour range insulated crimp ferrules made from bright tinned copper with polypropylene insulating sleeves that accept tri-rated and 2491X cables. These German colour range crimp bootlace ferrules provide a neat end termination to multi-stranded wires and reduce the possibility of wire strands short circuiting adjacent terminals and ensure a positive connection when used with terminal blocks and captive terminals. These crimp bootlace ferrules are available with a variety of pin lengths and wire sizes. For suitable crimp tool and die see stock numbers 848-391 and 848-420

Note

Length quoted is Pin Length

Specifications:

Wire Size:	12 AWG
Number of Entries:	1
Colour:	Grey
Pin Length:	18mm
Insulation:	Insulated
Pin Diameter:	3.2mm
Overall Length:	26mm
Contact Material:	Copper
Insulation Material:	Nylon
