Description

Front panels are available for 19" rack mounting of 3 U cassette type power supplies in *Schroff* system version (*Intermas* on request) and may be attached to the converter by means of countersunk screws.

An assembly kit, consisting of a front panel and a support bracket, enables arrangement of two standard cassettes with up to six output voltages in 6 U configuration.

All front panels are of colourless anodised aluminium and delivered with one or two grey plastic handles of 3 TE for easy pull-out and two or four hand-press insertable plastic retainers with captive screws for fixing to the rack.

Note: Front panel mounting or custom specific front panels are available on request.

Dimensions in accordance to DIN 41494-1 (IEC 60297):
