

Organize & Protect Components with Grid Tacki-Pak

An ESD safe “non-slip” retention product for organizing and sorting small components.

CCI is proud to offer our new “Grid Tacki-Paks.” These Grid Tacki-Paks feature a fully ESD safe package that consists of a dissipative “non-slip” retention surface inside a conductive hinged case. The case provides ESD shielding to protect components, while the dissipative tacki coating holds those components in place. The addition of the number grid aids in the tracking of small components.

| CCI Stock Part Number | Pedestal-Pak ID | Case Quantity |
|-----------------------|-----------------------|---------------|
| GTP2020 | 2 X 2 X 1/4" | 100 |
| GTP2525 | 2.9/16 X 2.9/16 X 1/2 | 100 |
| GTP2535 | 2.9/16 X 3-1/2 X 1/2 | 100 |
| GTP3545 | 3-1/2 X 4-5/8 X 1/2" | 50 |

- Dissipative Tacki Coating
- Shielding Case
- Non-Adhesive
- IPA Washable
- Fully ESD Safe
- Non-Contaminating
