

Dials & Knobs

The CLAROSTAT POWER RESISTOR DECADE is the essential tool in electronic and electrical design, testing and repair...for controlling known or unknown resistances...selected or determined under active operational conditions.

It provides a power resistor of any required resistance from 1 to 999,999 ohms in 10hm increments. The ohmage is selected by six dials, and the value is read directly - in sequence - from the dials, simplifying the selection of known or unknown resistance for use in working circuits.

Style	Resistive Element	Power Rating (watts)	Resistive Range (ohms)	Tolerance
-------	-------------------	----------------------	------------------------	-----------

DECADE BOX

240C

Table top	Wirewound	225 Max	1-999K	±2%, ±5%
-----------	-----------	---------	--------	----------

Series	Style	Number of Turns
--------	-------	-----------------

DIALS ■ DIGITAL READOUT

DR300 DR400	1.75 inch long x 1 inch wide, brake lever, accepts 1/4" diameter shaft.	10
		100

Series	Style	Housing	Brake Lever
--------	-------	---------	-------------

DIALS ■ CONCENTRIC SCALE

411	10-turn, 1 inch dia., accepts 1/4" dia. shaft.	Black anodized	No
1411		Black plastic	No
412		Black anodized	Yes
1412		Black plastic	Yes
461		Clear anodized	No
1461		Gray plastic	No
462		Clear anodized	Yes
1462		Gray plastic	Yes

Series	Style	Housing
--------	-------	---------

DIALS ■ CONCENTRIC SCALE/DIGITAL READOUT

316-11 316-12	10-turn, 7/8 inch diameter, brake lever, accepts 1/4" diameter shaft.	Clear anodized Black anodized
--------------------------------	---	----------------------------------

Style	Knob Diameter	Color	Shaft Diameter
-------	---------------	-------	----------------

HD

Saw-cut indicator	HD-50= .500"	1= clear	5= .250"
	HD-75= .750"	2= black	6= .125"
	HD-90= .925"	3= matte clear 4= matte black	
Straight knurl, top and side indicator	JD-50= .500"	1= clear	5= .250"
	JD-75= .750"	2= black	6= .125"
	JD-90= .925"	3= matte clear 4= matte black	

JD

Style	Knob Diameter	Color	Shaft Diameter
-------	---------------	-------	----------------

DD

DDS

Straight knurl, side indicator	DD-50= .500"	1= clear	5= .250"
	DD-75= .750"	2= black	6= .125"
Skirted, arrowhead on skirt	DDS-50= .500"	1= clear	5= .250"
	DDS-75= .750"	2= black	6= .125"
	DD-90= .925"	3= matte clear 4= matte black	
	DDS-90= .925"	3= matte clear 4= matte black
