Design Variations

- Part 8507 is available with or without "Grip/Pull" serrations on the sides
- Set screw locations can vary
- Markings and color can vary (see page 4T)
- Nut clearance depth and diameter can vary
- See part number system for shaft hole designation

Detailed drawings are available for each style

All of our backlighted knobs can be manufactured for night vision use. Our night vision knobs meet NVIS "Green A" requirements.
