SCSI/Fibre Channel - SCSI Ribbon Cable

MODEL NUMBER: **S014-68I**

Description

Tripp Lite's internal 68in (5.8ft) 50pin SCSI ribbon cable has 8 connectors and is used to connect 50pin internal devices. This is the internal 50-pin ribbon cable required for narrow and wide SCSI applications (sometimes called SCSI-1 or SCSI-2). Perfect for internal CD-ROM drives and hard drives. Our products are fully tested and certified to meet or exceed applicable industry standards. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

Features

- 68 inches long
- Eight 50sok(female) narrow SCSI connectors
- Internal 68in (5.8ft) 50pin SCSI ribbon cable with 8 connections used to connect up to eight 50pin internal devices
- All Tripp Lite SCSI products, regardless of the SCSI generation, meet the latest specifications of ANSI
- Tripp Lite offers a complete line of internal and external solutions for SCSI/RAID and fibre channel ranging from the very latest ultra 320 to legacy SCSI-1 and every combination in between
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life
