#### **Notes on Use**

#### **Shelf Life**

 Use within 6 months. If the product is used after a storage period of 6 months or longer, confirm its solderability before use.

#### **Storage Condition**

- Avoid storage in high temperature and high humidity environment, as such condition may deteriorate the solderability of external electrode.
- Avoid storage in atmosphere containing toxic gases or acid (e.g., sulphur and chlorine), as such gas may deteriorate the solderability of external electrode.
- Avoid storage near strong magnetic field, as such condition may magnetize the product.
