二、报告内容

Summary:

\$报告名称\$ina C-Si A-Si CIGS Solar Cell and Module Project Research Report 2009》was a professional report focus on China C-Si A-Si CIGS Solar Cell and Module project investment feasibility. It was a special project design report for China National Development and Reform Commission approve. The report introduced Global and China PV demand from 2005-2013, listed 2005-2013 supply of PV(cell and module) according PV upstream raw materials(such as Polysilicon wafer or thin film equipments etc),analyzed PV cell or module Price or Profit margin develop trend according their demand and supply relationship. After that, the report use big space introduced 1000MW C-Si 1000MW A-Si 1000MW CIGS PV Cell and Module Project Feasibility anslysis and gave related conclusions. In the end, Listed a special case of China 1000MW Thin Film Solar Cell project and introduced the peoject details of investment technology process manufacturing factory finance analysis operating analysis investment return analysis etc, and this project also pass National Development and Reform Commission approve. In a word, It was a depth research report on C-Si(Crystalline Silicon) A-Si(amorphous silicon) CIGS (Cu In Ga Se) Solar cell and module industry. And thanks to the support and assistance from PV experts and related enterprises during QYReserach Team survey and interviews.

Table of Contents:

Chapter One Solar Cell Project Overview

1.1 C-Si Thin Film Project Summary

- 1.2 Solar Cell Project Feasibility Research Conclusions
- 1.3 Thin Film Solar Cell Project Key Economy Benefit Information
- 1.4 Solar Cell Project Questions and Suggestions

Chapter Two Solar Cell Project Background and Development

- 2.1 PV Install Market Analysis (Demand) C-Si Thin Film
- 2.3 Solar Module Production (Supply) C-Si Thin Film
- 2.3 Solar Cell Production (Supply) C-Si
- 2.4 Solar Wafer Production (Supply) C-Si
- 2.5 Polysilicon Production (Raw Materials) C-Si
- China C-Si A-Si CIGS Solar Cell and Module Project Research Report 2009
- 2.6 C-Si Solar Module Supply Demand Analysis
- 2.7 Thin Film Solar Module Supply Demand Analysis

Chapter Three 1000MW C-Si Solar Cell+Module Project Investment Analysis

- 3.1 1000MW C-Si Solar Cell+Module Project Equipment Investment
- 3.2 1000MW C-Si Solar Cell+Module Project Fixed Assets Investment
- 3.3 1000MW C-Si Solar Cell+Module Project Raw Materials (Wafer Polysilicon etc)
- 3.4 1000MW C-Si Solar Cell+Module Project Investment Return Analysis
- 3.5 1000MW C-Si Solar Cell+Module Project Investment Return Rate Analysis
- 3.6 1000MW C-Si Solar Cell+Module Project Investment Feasibility Conclusion

Chapter Four 1000MW A-Si Thin Film Solar Module Project Investment Analysis

- 4.1 1000MW A-Si Thin Film Solar Module Project Equipment Investment
- 4.2 1000MW A-Si Thin Film Solar Module Project Fixed Assets Investment
- 4.3 1000MW A-Si Thin Film Solar Module Project Raw Materials (Substrate Gas etc)
- 4.4 1000MW A-Si Thin Film Solar Module Project Investment Return Analysis
- 4.5 1000MW A-Si Thin Film Solar Module Project Investment Return Rate Analysis
- 4.6 1000MW A-Si Thin Film Solar Module Project Investment Feasibility Conclusion

Chapter Five 1000MW CIGS Thin Film Solar Module Project Investment Analysis

- 5.1 1000MW CIGS Thin Film Solar Module Project Equipment Investment
- 5.2 1000MW CIGS Thin Film Solar Module Project Fixed Assets Investment
- 5.3 1000MW CIGS Thin Film Solar Module Project Raw Materials (Substrate Targets etc)
- china c-si a-si cigs solar cell and module project research report 2009
- 5.4 1000MW CIGS Thin Film Solar Module Project Investment Return Analysis
- 5.5 1000MW CIGS Thin Film Solar Module Project Investment Return Rate Analysis
- 5.6 1000MW CIGS Thin Film Solar Module Project Investment Feasibility Conclusion

Chapter Six C-Si A-Si CIGS Comparison and Conclusion

- 6.1 Investment Return Rate Comparison

6.2 Advantage and Disadvantage Comparison

6.3 Conclusions

Chapter Seven Market Analysis of Case Project

7.1 China Macroeconomic Analysis

7.2 China Solar Cell Development Analysis

China C-Si A-Si CIGS Solar Cell and Module Project Research Report 2009

7.3 Analysis of Case Project Target Market

7.4 Marketing Strategy

Chapter Eight Building Conditions and Site Selection

8.1 Project Summary

8.2 Project Purpose Analysis

8.3 Project Design

8.4 Project Contents

8.5 Project Site Selection

Chapter Nine Factory Technology Scheme

Chapter Ten Environment Protection and Labour Safety

Chapter Eleven Enterprise Structure

11.1 Case Project Operating Enterprise Overview

11.2 Company Culture

11.3 Company Strategy

11.4 Company Structure and Job Description

China C-Si A-Si CIGS Solar Cell and Module Project Research Report 2009

11.5 Company Management

Chapter Twelve Investment Estimation and Capital Raising

Chapter Thirteen Finance Analysis

13.1 Finance Analysis Explanation

13.2 Finance Analysis Postulated Conditions

13.3 Case Project Economic Benefits Calculation

Chapter Fourteen Feasibility Conclusions and Suggestions
