## **REACH Certificate of Compliance**

Cooper Bussmann is aware of REACH as the European Community Regulation on chemicals and their safe use.

### **The EC Regulation 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals ("REACH Regulation")**

Therefore, Cooper Bussmann supports the underlying goals of REACH, which are consistent with our own commitment to promote the responsible manufacturing, use and handling of hazardous materials and substances. In this approach we can confirm that, to date, all substances contained within the following products ("articles" or "preparations") are free of any of the substance of concern up to 0.1% by weight (0.1w percent or 1000ppm) established by the candidate list of Substances of Very High Concern (SVHC) published on December 15, 2010 as approved by the European Chemical Agency (ECHA)

Cooper Bussmann Part Number	Part Number Description
PWR35MM	35mm <sup>2</sup> Feeder Terminal (1000v DC)
PWR50MM	50mm <sup>2</sup> Direct-Feed Terminal (1000v DC)
PWR1PLP	1-Phase Low-Profile Feeder Terminal (100)

The status of the candidate list will continue to be monitored, as established under Article 33 of REACH to inform product recipients and consumers if any substance or "preparations" of an "article" contains more than 0.1% by weight per article of any substance that is added to the SVHC candidate list in the future.
