PowerVerter Ultra-Compact Inverter - Portable Power for All Applications

MODEL NUMBER: **PV500**

Description

Harness your vehicle's battery to efficiently power office equipment on the road. Continuously supplies up to 500 watts of 120V AC power to 3 AC outlets from any 12V battery or automotive DC source. Includes 4 ft. of DC cabling with battery clips for simple installation. Super-compact, lightweight metal case design is among the smallest, most rugged inverters available at this power level.

NOTE: To protect against high current draw that may occur during inverter failure, a fuse link rated at 100a should be positioned no more than 18" from the PV500's battery in the positive line.
