CST Memory Cartridge

Part number: 2245

Description

Screws adjust cutting depth of the blades. Once properly set, mark for specific cable & store for next use. Maintain separate memory cassettes for each cable type.

Features

- Reduce set-up time
- Easy to interchange
- Quickly change applications without having to fine adjust cutting depth each use
- Includes Y-block to insert into tool to tighten up rollers for smaller cable sizes. When not in use, stores inside of memory block
