features

- octave & multi-octave bandwidth
- good phase & amplitude balance
- hermetically sealed metallic enclosure with plug-in version.
- capable of meeting MIL-M-28837 requirements

pin and coaxial connections

NOTES:

- Protected under patent No. 4,673,898
- Available only with SMA connectors
- General Quality Control Procedures, Environmental Specifications, Hi-Rel and MIL description are given in General Information (Section 0).
- Connector types and case mounted options, case finishes are given in section 0, see "Case styles & outline drawings".
- Prices and specifications subject to change without notice.
- Absolute maximum power, voltage and current rating:
 - 1a. Input power, 100mW; 1b. Control current, 40mA
- All specifications at control current ±20mA
- Control ports drive with 50 ohms source
