

Global Change Notification (GCN)

Product Family	Handylink, HS Mezz, LFH, TDP, SCA-2, LPHvert	10627204
		GCN Number
Series	multiple	March 05, 2014
		Date Issued
Reason For Change	Supplier Changes To Raw Material	
Change Description	The purpose of this letter is to inform you that on occasion, we identify a material that may present a higher supply risk, and we proactively take steps to identify alternative materials that will meet the intended function and performance. We will take the necessary steps to test and validate alternative raw materials. This includes full evaluation of entire manufacturing process as well as full conformance to the existing product specification. We identified C4250 as an excellent alternate material for C4252. It is in the same Copper-Zinc-Tin alloy and is actually the base alloy from which C4252 was developed.	
Part Numbers Affected	Please refer to CustomerPartList.csv attached to e-mail message.	
Reason For Short Notice Exception	Special Request
