

#### <u>Important notes about Classic Panel Mount Indicator Catalog Pages</u>

#### SCROLL DOWN TO VIEW CATALOG PAGE

This catalog page is out-of-print and is used with the understanding that the information shown could be out-of-date. In many cases, part numbers shown on this page are discontinued. Most notably, many "Complete Assembly" parts, which consist of a cap and a base, can no longer be ordered by the 14-digit ordering code. To obtain these parts, please order the cap and base part numbers separately. This process provides the components contained with the original "Complete Assembly" part number.

All Dialight Classic Panel Mount Indicators need a leading 3-digit numerical series. In some cases, this catalog will show a 2-digit series. In this case, please add a leading zero. For example, 81-0211-300 becomes **0**81-0211-300.

Part numbers listed on Dialight catalog pages designate parts with Red lenses. For ordering lens colors other than red, consult the chart below. In most cases, the color is dictated by the 7<sup>th</sup> digit. For example, 095-093**2**-003 for a green cap.

Lens Colors		
1 - Red 2 - Green	5 - White 6 - Light Yellow	
3 - Yellow	7 - Clear	
4 - Blue

How to designate the Three Digit Part Number Suffix (-XXX)

Finish	Resistor	Hardware
1-white nickel 2-black nickel 3-polished chrome	0-none	1—brass 3—water-tight on the face of the panel

**Example:** 111-4630-0111-301 (polished chrome finish, no resistor, brass hardware).

Part numbers listed in this catalog designate products with RED lens. For ordering lens colors other than red, consult chart on page 4C.

Order complete with lamp to be assured of receiving the indicator light and correct lamp together for immediate use.
