

Introducing Terminal Block Power Connector, 10.16mm Pitch

Terminal Block
Power Connector,
10.16mm Pitch

KEY FEATURES

- Screw termination
- Side wire entry
- 10.16mm pin spacing
- Modular design

DESCRIPTION

High Power Terminal Block. One piece design, printed circuit board mount block on 10.16mm pin spacing, rated for up to 52 amps

APPLICATIONS

These terminal blocks can be used where high current must be brought on the PCB. Including both field and factory wiring applications such as:

Power Supplies

Variable Frequency Drives

Motor Controls

ELECTRICAL

UL and CSA rated for 300 volts, 52 amps

Terminal Block Power Connector, 10.16mm Pitch

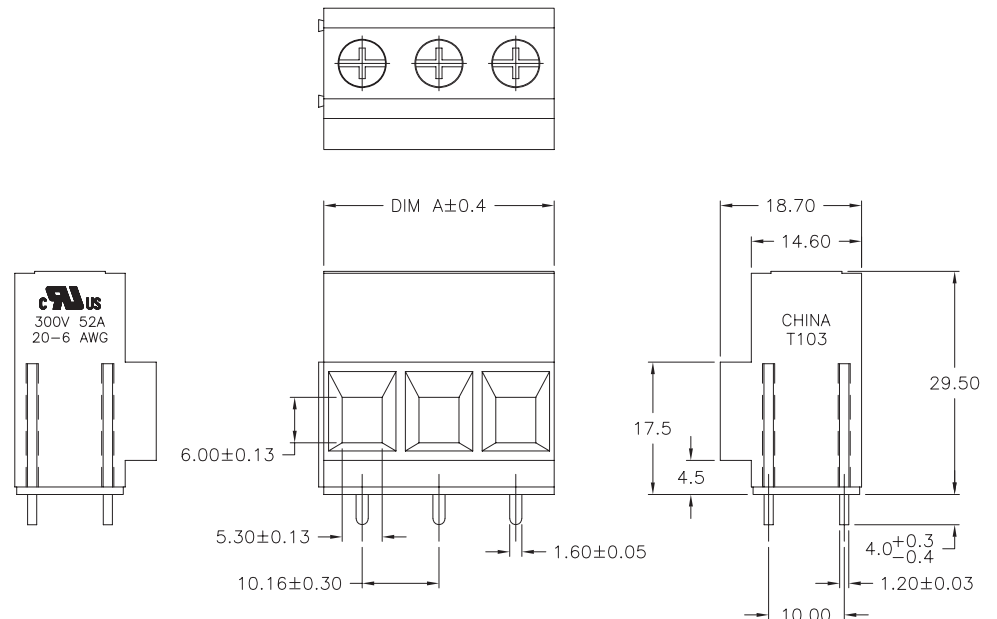

MECHANICAL

Suggested screw torque is 10.5 in-lbs

MATERIALS

UL94V-0 rated Polyamide

PRODUCT DIMENSIONS

PRODUCT OFFERING

1776886-2	2 position, green
1776886-3	3 position, green
1-1776886-2	2 position, black
1-1776886-3	3 position, black

APPLICATION TOOLING

None required
