Green Insulated Crimp Bootlace Ferrule

RS Stock number [311-7892](#)

Dimensions: (mm)

Specifications

- A range of cable ferrules designed to provide a neat end termination to multi-stranded wires.
- They provide a secure connection to terminal blocks and captive terminals and stop wire strands short circuiting to adjacent connectors.
- Crimping is achieved by the action of the screw in the connector, or by use of a dedicated crimping tool.
- The ferrules consist of a tinned copper hollow tube and are also available with a plastic colour coded insulating shroud.
- Terminal : Copper 0.3μ tin plated.
- Shroud : Nylon.
- Maximum temperature : 105°C.
