

Technical drawing of a rectangular plate with dimensions and force vectors. The plate has a width of 101.24 [3.99] and a height of 56.79 [2.24]. The overall width including mounting flanges is 123.83 [4.88]. Force vectors A and B are applied at the corners, with A pointing left and B pointing up.

Technical drawing of the inner box showing width and length dimensions.

Width: 51.94 [2.05] (Inner Box Width)

Length: 77.67 [3.06]

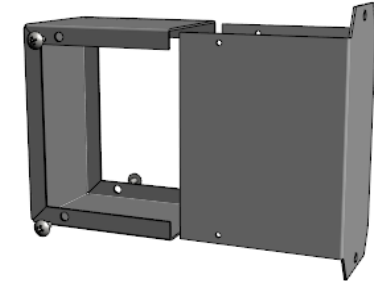

Diagram illustrating the dimensions of a rectangular box:

- Inner Box Height: 75.64 [2.98]
- Inner Box Length: 99.21 [3.91]
- Wall Thickness: 1.02 [0.04]

Technical drawing of a rectangular frame structure. The drawing shows a top view and a side view. The top view is a rectangle with a width of 90.12 mm [3.55] and a height of 66.88 mm [2.63]. The side view shows a vertical dimension of 76.4 mm [3.01] and a horizontal dimension of 82.19 mm [3.24]. The frame is composed of four vertical members and two horizontal members. The vertical members are labeled with a diameter of $\varnothing 4.76$ [0.19]. The horizontal members are labeled with a width of 90.12 mm [3.55]. The vertical dimension of 76.4 mm [3.01] is the total height of the frame. The horizontal dimension of 82.19 mm [3.24] is the distance between the vertical members. The vertical dimension of 66.88 mm [2.63] is the height of the frame from the base to the top horizontal member. The horizontal dimension of 90.12 mm [3.55] is the width of the frame. The drawing is a technical drawing of a rectangular frame structure.

Enclosures can be Factory Modified (Milling, Drilling, Printing etc.)
