

## 20mm & 30mm Corner Cube Kits

6 8

These corner brackets connect 20- and 30-series square profiles at right angles. 2S corner cube kits connect two profiles together for creating two dimensional structures such as picture frames. 3S corner cube kits can be used to build 3-dimensional structures such as tables, shelving frames, and much more. Kits include all necessary hardware, including cover caps for the screw access holes to provide neat, finished appearance.

### Features:

- Includes all necessary hardware
- Self-tapping screws (no special machining needed)
- Cover caps included to provide neat, finished appearance

### Machining required:

- None

### Material:

- Corner cube: die-cast aluminum
- Cover caps: black polyamide
- Screws: steel
