

JUMO heatTHERM-AT and heatTHERM-DR

Type 603070, versions as mounting or room thermostat

PUSH IN -Connection system – installation time reduced by 50%

- Ambient temperature compensation stable switching point position
- Contact rating 16 A, 230 V
- Tested to EN 14597 (replacing DIN 3440)
- At least 250,000 switching operations for TR, TW
- Deviation from switching point over entire service life of max. $\pm 5\%$
- Max. enclosure protection IP 54
- UL approved

Brief description

Key features of this new series of thermostats from JUMO are very flexible use and the most modern connection technology.

The thermostat housing is suitable for all commonly used mounting types: wall, immersion sleeve, and attachment fastening. It can be used universally and reduces the number of different types, since different mounting types are no longer required.

The heatTHERM-AT type (designs 7+8) is a special variation with a modified base that allows for DIN rail or wall mounting. This facilitates easy mounting on TH35 mounting rails to EN 60715 (for example in switch cabinets). The result is significantly less mounting time for this version. To use these surface mounting thermostats, the first of their kind in the world with "Push-In®" terminal technology, simply insert the connecting wires into the connecting points as far as they will go. That's it! No tool is needed to connect the wire or the strand with the ferrule and the wiring is more reliable. This solution also saves considerable time and money compared to the conventional screw terminal.

Using "Push-In®" technology, loads up to 16 A can be directly connected at 230 V AC. Because no contactor is required, the cost of installation is reduced still further.

Maintenance costs are reduced because of the small interval of about 10°K from the point of shutting off the safety temperature limiter to turning it back on.

The following are available: temperature controller (TR), operating temperature monitor (TW), safety temperature monitor (STW) and safety temperature limiter (STB) as single or double thermostat.

The high quality standards of this series of products are demonstrated by approvals under EN 14 597, DGRL and UL.

Type 603070/0170 (TR/STB)

Type 603070/0001 (TR)

Type 603070/0002 (TW)

Type 603070/0002-7 (TW)

Switching function

Temperature controllers TR and temperature monitors TW

When the temperature present at the temperature probe exceeds the specified setpoint, the snap-action switch is activated by the transmission mechanism and the circuit is opened or closed. If the value falls below the specified setpoint (by the switching differential) the snap-action switch returns to its initial position.

Safety temperature monitor STW

When the temperature present at the temperature probe exceeds the specified setpoint, the snap-action switch operates and the circuit is opened or closed. If the value falls below the specified setpoint (by the switching differential of about 10°K) the snap-action switch returns to its initial position.

If the measuring system is destroyed, that is, should the expansion fluid escape, the pressure in the diaphragm will fall and the circuit will be permanently open.

The same circuit will open if the temperature at the probe cools to below about -20°C. However, it closes automatically if the temperature increases again.

Safety temperature limiter STB

If the temperature present at the temperature probe exceed the specified limit, the snap-action switch is activated, the circuit opens or closes, and the snap-action switch is mechanically locked.

After the temperature falls 10°K below the limit, the snap-action switch can be manually unlocked again.

If the measuring system is destroyed, that is, should the expansion fluid escape, the pressure in the diaphragm will fall and the circuit will be permanently open. Then it is no longer possible to deactivate the lockout.

The same circuit opens if the sensor cools off to a temperature under about -20°C, . However, it closes automatically if the temperature increases again.

Approvals

Technical data

		Designs 5 + 6	Designs 7 + 8
Enclosure	TR TW, STW, STB	Base: PA (reinforced) Color: silver gray RAL 7001	
		Cover: ABS with pane (PMMA) Color: cobalt blue RAL 5013	
Setpoint adjustment	TR	Switching point can be operated from outside with rotary knob.	- - -
	TW, STW, STB	Switching point adjustable by screwdriver once the cover is removed from the housing. Specified switching point can be monitored through the pane.	Switching point adjustable by screwdriver
Protection		IP 54 to EN 60529	IP 20 to EN 60529
Cable entry		Cable gland M20 x 1.5, for cable Ø 6-12 mm	Cable connection directly to PUSH IN terminals
Capillary		Min. bending radius of capillary 5 mm	
Housing mounting		Pipe installation with retaining strap for pipe diameters 15-100 mm, protection tube mounting, wall mounting	Wall mounting, DIN rail mounting TH35 to EN 60715
Weight		approx. 0.2 kg	

Electrical data

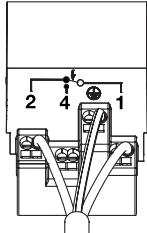

Contact type	Snap-action switch with one-pole changeover contact				
Contact rating	TR, TW, STW	STB			
	On the break (SPST-NC) contact (contacts 1-2): AC 230 V +10%, 16 (2.5) A, cos φ = 1(0.6) DC 230 V +10%, 0.25 A On the make (SPST-NO) contact (contacts 1-4): AC 230 V +10%, 6.3 (2.5) A, cos φ = 1(0.6) DC 230 V +10%, 0.25 A	On the break (SPST-NC) contact (contacts 1-2): AC 230 V +10%, 16 (2.5) A, cos φ = 1(0.6) DC 230 V +10%, 0.25 A On the signal contact (contacts 1-4): AC 230 V +10%, 2 (0.4) A, cos φ = 1(0.6) DC 230 V +10%, 0.25 A			
Connection	PUSH IN contact (plug-in terminal) "Push-In®" terminal system: patented connection technology of Weidmüller GmbH & Co. KG, Detmold, Germany.				
Connection cross-section	0.75 to 2.5 mm ² finely stranded (single core, finely stranded with ferrule)				
Contact reliability	To ensure that switching is as reliable as possible, we recommend a minimum loading of: for silver contacts: AC / DC = 24 V, 100 mA.				

Operating data

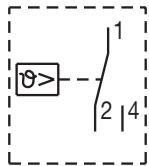

Switching point accuracy	TR, TW	STW, STB with a setting range of: +20°C to +80°C +70°C to +130°C		
	Switching differential 2.5%	in the first half (+20 to +50°C)	in the upper half (+50 to +80°C)	in the first half (+70 to +100°C) in the upper half (+100 to +130°C)
	In the upper third of the scale ± 3%, at start of scale ± 6%	+0 / -5K	+0 / -12K	+0 / -12K +0 / -5K
Temperature compensation	If there is a deviation in the ambient temperature at the thermostat head and capillary from the calibration ambient temperature of +22°C, there is a shift in the switching point of about -0.1 K/K (change in the switching point in reference to the change in ambient temperature, measured at the limit value of +120°C permanently set and with capillary length of 2000 mm). The standard temperature compensation reduces this switching point shift to a minimum.			
Limit value temperatures	for transport and storage: -30 to +50°C in operation: max. +80°C (design 7 max. +55°C, design 6 + 8 max. +50°C) with pipe mounting max. pipe temperature +120°C			
Nominal position (NL)	to DIN 16257, NL 0 to NL 90 (other nominal positions available on request)			

Approvals	DIN	EN 14597	TR 119107, TW 119207, STW (STB) 119307, STB 119407
	DGRL	Pressure Equipment Directive 97/23/EC	STW and STB
	UL	UL 873	E 66358

Order details:

Mounting thermostat type 603070

Order code	(1) Basic type	
603070	heatTHERM-AT with one-pole snap-action switches	
	(2) Basic type extension	
0001	Temperature controller (TR)	
0002	Temperature monitor (TW)	
0020	Safety temperature monitor (STW)	
0070	Safety temperature limiter (STB)	
0202	Room thermostat temperature monitor / temperature monitor (TW/TW)	
0120	Temperature controller / safety temperature monitor (TR / STW)	
0170	Temperature controller / safety temperature limiter (TR / STB)	
	(3) Design	
5		Mounting thermostat, with protection tube, flange sleeve, capillary or as contact sensor
6		Room thermostat, with helix sensor
7		DIN railthermostat, with capillary
8		DIN railthermostat, with helix sensor
	(4) Control/ limit value range 1	
016	-10...+ 40°C (TR, TW)	
021	0...+ 50°C (TR, TW)	
040	+ 20...+ 80°C (STW)	
026	0...+120°C (TR, TW)	
671	+ 70...+130°C (STW, STB)	
379	+ 40...+215°C	
	Other control/limit value ranges up to +350°C available on request	
	(5) Control/ limit value range 2	
671	+70...+130°C Adjustable (STW, STB)	
	Other control/limit values permanently set up to +350°C available on request	
	(6) Switching differential	
00	No switching differential (STB)	
25	approx. 3K (TR, TW)	
70	approx. 10K (STW)	
	(7) Capillary length	
0	0 mm (for room thermostat only)	
2000	2000 mm	
....	Special length on request	
	(8) Capillary material	
40	Copper (Cu)	
20	Stainless steel (CrNi, 1.4571)	
17	Ø 17 mm Helix sensor for room thermostat

Accessories

Protection tube set Suitable for one sensor	Protection tube with sealing collar	Bracket for strain relief	Plate for mounting thermostat	Screw for mounting thermostat

Sales no.	Type	Code	Connecti on	Ø pocket x fitting length EL (mm)	Material	Pressure load capacity at +150°C
60/60003177	Screw-in protection tube with sealing collar	28	G 1/2	8 x 100	Brass / nickel plated	48 bar
60/60003203				8 x 150		
60/60003171				8 x 200		
60/60003172				8 x 100	Stainless steel / 1.4571	88 bar
60/60003205				8 x 150		
60/60003173				8 x 200		

Protection tube set Suitable for two sensors	Protection tube with sealing collar	Bracket for strain relief	Plate for mounting thermostat	Screw for mounting thermostat

Sales no.	Type	Code	Connecti on	Ø pocket x fitting length EL (mm)	Material	Pressure load capacity at +150°C
60/60003178	Screw-in protection tube with sealing collar	29	G 1/2	2 x 8 x 100	Brass / nickel plated	48 bar
60/60003204				2 x 8 x 150		
60/60003174				2 x 8 x 200		

Protection tube set Suitable for two sensors	Protection tube with sealing collar	Spring clip	Bracket for strain relief	Plate for mounting thermostat	Screw for mounting thermostat

Sales no.	Type	Code	Connecti on	Ø pocket x fitting length EL (mm)	Material	Pressure load capacity at +150°C
60/60003175	Screw-in protection tube with sealing collar	29	G 1/2	15 x 100	Stainless steel / 1.4571	48 bar
60/60003206				15 x 150		
60/60003176				15 x 200		

Adapter piece for pocket	Material
Sales no. 60/00507273	Material Steel / 1.0718
