

# TELCO Connector Interface Modules

Data Sheet 1379B

April 2005

## Features

- Connect to 50-way TELCO cables
- DIN-rail mounted with discrete screw connection
- Jack screw option also available
- Compact design

## Description

The TELCO Connection modules provide discrete screw connections for each pin of a 50-way TELCO connector. Standard 50-way TELCO cables can therefore be easily disconnected without any wiring errors on the field side of the connection. The modules are ideally suited for all applications where a quick connection is required to a TELCO cable.

Applications that would benefit from this installation method include test and measurement, communication, and industrial applications. The screw connector used allows for 30 to 12 AWG wire sizes and can be easily disconnected with a standard blade screw driver.

## Ordering Information

<u>Part Description</u>	<u>Part Number</u>
<b>50-Pin TELCO Modules</b>	
FLKM 50-TEL/S	56 00 86 6
FLKM 50-TEL/B	55 41 23 4
<b>Module with Jack Screws</b>	
FLKM 50-TEL/B-2JS	56 00 86 5
FLKM 50-TEL/S-2JS	56 02 74 2

Note: S = Male connector  
B = Female Connector  
2JS = 2 Jack Screws

Table 1. TELCO Specifications

<b>Technical Data</b>	
Operational voltage .....	60 V dc
Current rating .....	1 amp per point
<b>General Data</b>	
Wire size .....	#30-12 AWG
Operating temperature .....	-20°C to +50°C (-4°F to +122°F)
<b>Dimensions</b>	
Height .....	2.30" (58.5 mm)
Width .....	5.76" (146.3 mm)
Depth .....	3.03" (77.0 mm)
