

Product Information

CHP-170 Precision Cutter

Introduction

A direct replacement for all 170 cutters. The slim, triangular head design reaches into tight areas with ease. The 2.5mm thick stamping allows the flush cutting of a maximum wire size of 16 AWG and longer life, as compared to the competition's 2.0mm thickness.

Features / Benefits

- Ergonomically Acceptable
- Reduces Operator Fatigue
- Rockwell Hardness: C55
