

DATA SHEET

SKY13377-313LF: 0.5 – 6.0 GHz SPDT 10 W Switch, 50 Ω Terminated

Applications

- WiMAX 802.16
- Dual-band WLANs (802.11 a/b/g/n)
- LTE/4G systems

Features

- 50 Ω matched RF ports in all states
- Low insertion loss: 0.7 dB @ 2.5 GHz
- High isolation: 31 dB @ 2.5 GHz
- High IP1dB: +39 dBm
- Small, DFN (6-pin, 2 x 3 x 0.9 mm) SMT package (MSL1, 260 °C per JEDEC J-STD-020)

Figure 1. SKY13377-313LF Block Diagram

Skyworks Green™ products are compliant with all applicable legislation and are halogen-free. For additional information, refer to *Skyworks Definition of Green™*, document number SQ04-0074.

(Top View)**

Description

The SKY13377-313LF is a GaAs pHEMT Single-Pole, Double-Throw (SPDT) high power switch with 50 Ω terminated outputs. The high linearity performance and low insertion loss achieved by the SKY13377-313LF make it an ideal choice for WiMAX and WLAN applications.

The switch is manufactured in a compact, 2 x 3 x 0.9 mm, 6-pin Dual Flat No-Lead (DFN) SMT package.

A functional block diagram is shown in Figure 1. The pin configuration and package are shown in Figure 2. Signal pin assignments and functional pin descriptions are provided in Table 1.

Table 1. SKY13377-313LF Signal Descriptions

Pin #	Name	Description	Pin #	Name	Description
1	RF2	RF output: 50 Ω terminated when in isolation state. Must be DC blocked.	4	V1	DC control voltage
2	GND	Ground	5	RFC	RF common input. Must be DC blocked.
3	RF1	RF output: 50 Ω terminated when in isolation state. Must be DC blocked.	6	V2	DC control voltage

Table 2. SKY13377-313LF Absolute Maximum Ratings

Parameter	Symbol	Minimum	Maximum	Units
Control voltage	V _{CTL}		6	V
Input power	P _{IN}		+40	dBm
Storage temperature	T _{STG}	−40	+125	°C
Operating temperature	T _{OP}	−40	+85	°C

Note: Exposure to maximum rating conditions for extended periods may reduce device reliability. There is no damage to device with only one parameter set at the limit and all other parameters set at or below their nominal value. Exceeding any of the limits listed here may result in permanent damage to the device.

CAUTION: Although this device is designed to be as robust as possible, Electrostatic Discharge (ESD) can damage this device. This device must be protected at all times from ESD. Static charges may easily produce potentials of several kilovolts on the human body or equipment, which can discharge without detection. Industry-standard ESD precautions should be used at all times.

Functional Description

Switching is controlled by two control voltage inputs, V1 and V2 (pins 4 and 6, respectively). Depending on the logic voltage level applied to the control pins, the RFC pin is connected to one of the two switched RF outputs, RF1 or RF2, using a low insertion loss path, while the path between the RFC pin and the other RF pin is in a high isolation state.

DC blocking capacitors are required on all RF ports of the switch. The value of the capacitors determines the low frequency operation. The isolated RF output is internally terminated to 50 Ω .

Electrical and Mechanical Specifications

The absolute maximum ratings of the SKY13377-313LF are provided in Table 2. Electrical specifications are provided in Table 3.

Typical performance characteristics of the SKY13377-313LF are illustrated in Figures 3 through 6.

The state of the SKY13377-313LF is determined by the logic provided in Table 4.

Table 3. SKY13377-313LF Electrical Specifications (1 of 2) (Note 1)**($V_{CTL} = 0\text{ V}$ and $+3.0\text{ V}$, $T_{OP} = +25\text{ }^{\circ}\text{C}$, $P_{IN} = 0\text{ dBm}$, Characteristic Impedance $[Z_0] = 50\text{ }\Omega$, $C_{BLK} = 47\text{ pF}$, Unless Otherwise Noted)**

Parameter	Symbol	Test Condition	Min	Typical	Max	Units

Table 4. SKY13377-313LF Truth Table

V1 (Pin 4)	V2 (Pin 6)	Insertion Loss State
1	0	RFC to RF1
0	1	RFC to RF2

Note: "1" = +2.5 V to +5.0 V. "0" = 0 V to +0.2 V. Any state other than described in this Table places the switch into an undefined state. An undefined state will not damage the device.

Evaluation Board Description

The SKY13377-313LF Evaluation Board is used to test the performance of the SKY13377-313LF SPDT Switch. An Evaluation Board schematic diagram is provided in Figure 7. An assembly drawing for the Evaluation Board is shown in Figure 8.

Package Dimensions

The PCB layout footprint for the SKY13377-313LF is provided in Figure 9. Typical case markings are shown in Figure 10. Package dimensions for the 6-pin DFN are shown in Figure 11, and tape and reel dimensions are provided in Figure 12.

Package and Handling Information

Instructions on the shipping container label regarding exposure to moisture after the container seal is broken must be followed. Otherwise, problems related to moisture absorption may occur when the part is subjected to high temperature during solder assembly.

The SKY13377-313LF is rated to Moisture Sensitivity Level 1 (MSL1) at 260 °C. It can be used for lead or lead-free soldering. For additional information, refer to the Skyworks Application Note, *Solder Reflow Information*, document number 200164.

Care must be taken when attaching this product, whether it is done manually or in a production solder reflow environment. Production quantities of this product are shipped in a standard tape and reel format.

$C_{BL} = 47 \text{ pF}$ for $>1 \text{ GHz}$ operation. Increase value for lower frequency operation.

Exposed ground paddle should be grounded for best performance.

(Top View)**

All measurements are in millimeters.
Dimensioning and tolerancing according to ASME Y14.5M-1994.
Coplanarity applies to the terminals and all other bottom surface metalization.
Dimension applies to metalized terminal. If the terminal has a radius on its end, the width dimension should not be measured in that radius area.

Figure 11. SKY13377-313LF 6-Pin DFN Package Dimensions

Notes:

- Carrier tape: black conductive polystyrene, non-bakeable material.
- Cover tape material: transparent conductive HSA with 9.20 mm width.
- ESD-surface resistivity is $\geq 1 \times 10^5 \leq 1 \times 10^{10}$ Ohms/square per EIA, JEDEC TNR Specification.
- All measurements are in millimeters.
