

Cree XHP Series LED Module Heat Sinks

Illumination Accelerated

Cree XHP35 Module
2x6 Heat Sink

Cree XHP50 & XHP70
Module 2x2 Heat Sink

Designed for Cree XHP LED modules, the Opulent North America Heat Sinks are configurable to fit Linear, Rectangular, or Square footprints. Easy mounting to housing or bracket is done through our unique front profile design. Integrating Multiple Modules is effortless with our simple interlocking technology.

Superior Performance in Standard Module Heat Sinks

- Reliable Passive LED Cooling
- IP67 Dust and Water Rated
- Single Piece Extruded Aluminum Construction

Cree XHP Series LED module Heat Sinks are available from authorized distributors, see Opulent-NA.com for our complete list of distributors. Custom Heat Sinks are also available, contact Opulent North America for further details.

Heat Sink Features

Ordering Information

Model Number	Description	Recommended Module(s)
ONA-0504-01	Heat Sink, 4.37"x3.25"x5.00", IP67	XHP50A-0S-04-x XHP70A-0S-04-x
ONA-0804-01	Heat Sink, 4.37"x3.25"x8.00", IP67	XHP35A-0R-12-x

Integrate Further

- Add our Cree XHP modules, which include thermal interface material, to build a complete system
- Modules are preconfigured for off-the-shelf optics
- See our XHP module series [HERE](#)

Illumination Accelerated

- Configurable to fit Linear, Rectangular, or Square footprints
