

## Ultimate Tool Bag (empty)

Part number: 4923 Technical

### Description

This bag is the most compact and versatile tool bag on the market. The design idea originated with an installer that needed his techs to literally carry everything and this bag will do just that!

### Features

- Main compartment holds removable inner tote & features 3 additional pockets
- Removable inner tote caddy keeps small tools in-view & at hand with 8 adjustable slots
- Interior pockets in main compartment hold tone generator & speaker probe or other items & larger pocket will hold test equipment or large crimper
- 3 outer pockets: one deep vertical pocket on back & 2 smaller horizontal pockets on front
- All pockets either zip or Velcro® shut
- Includes Plano® divided tackle box neatly stores dies, blades & connectors. Fits into all outer pockets
- Rugged, comfortable web handle
- Detachable shoulder strap with 3 anchor points to carry bag horizontally or vertically
- Double, lockable zippers

### Advantages

- Lightweight, compact & flexible
- Totes like a tool box or can be carried on your shoulder
- Sturdy bottom so you can set the bag upright & does not flop over
