

PROLINE®-CL Colocation Cabinet, Components and Accessories

PROLINE®-CL Colocation Server Cabinet

Industry Standards

EIA 310-D

Application

PROLINE®-CL Colocation Cabinets are designed for secure data centers that store computer equipment for multiple customers. Standard components allow cabinets to be configured with up to four separate, secure compartments that can be reconfigured on-site as needs change. Each compartment has its own front and back access and is passively cooled by virtue of the overall cabinet design.

Features

- Doors have locking trigger latch for easy access plus security
- Integral floor bolt-down brackets provide quick, secure installation
- Cable entry and fan mounting provision on top and two access panels on right side facilitate mounting and wiring equipment

Dual compartment pre-assembled package also includes:

- Colocation frame shelf to divide the frame into two secure compartments
- Cable management system to isolate the wiring to each compartment
- Optional compact cooling fan

Specifications

- Welded 12 gauge steel frame
- 19-in. adjustable square hole, L-shaped rack angles front and rear
- Square holes spaced per EIA 310-D standards
- Front and rear vented 16 gauge steel door
- Optional 16 gauge vented window door with acrylic window
- Vented 16 gauge steel top
- 16 gauge right side barrier with two access plates

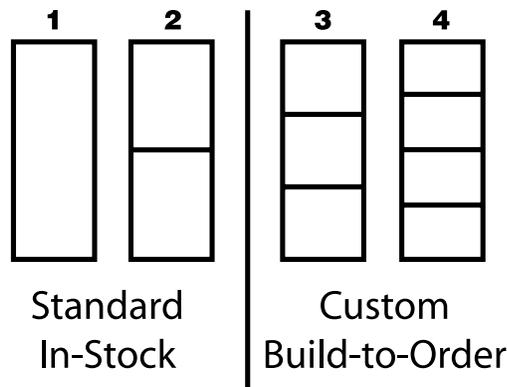

Finish

Pretreated steel coated with RAL 9005 black textured, low-gloss polyester powder paint. Other finishes available—contact Hoffman Customer Service.
