

PTC Thermistors For Heating Application

FEATURES

- Ag-metallization suitable for clamping
- Self-regulating surface temperature at voltages from 90 V_{AC} up to 265 V_{AC}
- Self-protecting against over-heating due to PTC effect
- Compliant to RoHS directive 2002/95/EC and in accordance to WEEE 2002/96/EC

QUICK REFERENCE DATA

PARAMETER	VALUE
Resistance value at 25 °C	1200 Ω
Tolerance on R ₂₅	± 35 %
Rated voltage	230 V _{AC}
Maximum voltage	265 V _{AC}
Operating temperature range	- 40 °C to 85 °C
Climatic category	40/155/56

DESCRIPTION

These directly heated thermistors have a positive temperature coefficient and are primarily intended as heating element.

APPLICATIONS

Home appliances (thermal actuators, warming plates, evaporators, insecticide and perfume vaporizers, fan-heaters).

To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and/or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk and agree to fully indemnify and hold Vishay and its distributors harmless from and against any and all claims, liabilities, expenses and damages arising or resulting in connection with such use or sale, including attorneys fees, even if such claim alleges that Vishay or its distributor was negligent regarding the design or manufacture of the part. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.
