The all plastic and metal construction of the 7000 Series Buccaneer - circular connectors that combine the ease of use of a quick coupling mechanism with proven environmental sealing for signal and mains power.

Designed and independently tested to IP66, IP68 & IP69K standards, they are ideal for applications where ingress of dust and water must be avoided and where ease of connection, space and appearance are important considerations.

○ Less than 1/4 Turn locking mechanism
  Secure, quick connector mating and release

○ Positive feedback on locking mechanism
  Confidence that connector is correctly mated and sealed

○ IP66, IP68 and IP69K when mated
  Suitable for a wide range of dust and water borne environments

○ All plastic body version; UL94-V0 rated, UV stable, halogen free
  Light-weight, self-extinguishing material suitable for long-term outdoor use

○ Flex, flex in-line & panel mount body styles,with sealing caps
  Complete family of products maintain sealing integrity in all styles

○ Polarisation and visual alignment features
  Aids the correct mating of connectors

○ 2 to 32 poles – up to 25A, 600V rated
  Suitable for mains power to signal applications

○ 'Scoop proof' contacts
  Prevents damage through mis-mating – ideal for 'blind mating' applications

○ cULs, UL, VDE
  approvals Internationally recognised certification (pending)

○ Screw, Crimp and Solder terminations available

○ EN60068-2-52 Test Kb Salt Mist (Cyclic)
  Marine Severity Level 1

Flex Cable Connector

- Mates with In-Line Flex or Panel Mounting versions PXP7011 & PXP7012
- Quick turn locking ring
- Pin or socket versions
- Leading earth on 3 pole connectors
- 2, 3, 6, 10 & 32 pole
- Screw solder and crimp termination

Crimp / Solder Contacts

10 & 32 pole contacts

○ Gold Plated
○ Current ratings:
  10 pole: 10A
  32 pole: 2A

Contacts (for 10 pole) (Supplied in packs of 10)	Crimp	Solder
Pins	SA3544/P	SA3623/P
Sockets	SA3544/S	SA3623/S

Contacts (for 32 pole) (Supplied in packs of 10)	Crimp	Solder
Pins	SA3542/P	SA3622/P
Sockets	SA3542/S	SA3622/S

Crimp Tooling

BULGIN

PNo 14025

○ Crimp Tools for 10 and 32 pole crimp contacts

Crimp Tooling

Crimp Tool (10 & 32 pole)	PNo. 14025
Positioner (10 pole)	PNo. 15021/SP
Positioner (32 pole)	PNo. 15019/SP

Extraction Tools

PNo 14944/SP   PNo 14945/SP

○ Extraction tool for 10 and 32 pole contacts

Extraction Tools

Extraction tool (10 pole)	PNo. 14945/SP
Extraction tool (32 pole)	PNo. 14944/SP

Contact Carrier Removal Tool

PNo 15065/SP

○ For removal of all contact carriers

Contact Carrier Removal Tool

Contact carrier removal tool (all poles)	PNo. 15065/SP

Cable Braid Termination Option

PXM7090

○ For cable braid termination
○ Supplied with ty-rap

7000 Series Buccaneer

Accessories

Sealing Caps

○ Maintains IP rating of unmated connectors
○ PXP7081: Fits PXP7010 (Flex Connector)

Flammability Rating:	UL94 V-0	-
Halogen free	Yes	-
UV Resistance:	ISO 4892 part 3 cycle 1 (QUV)	-
RoHS	Compliant	Compliant

The thermal properties of the materials used in the construction of a connector limit the current carrying capacity. There are a number of factors that determine the amount of current that can be handled: contact spacing, size of cable, ambient temperature and the heat that is generated by the current passing through the connector.

The maximum current varies with different contact layouts, and because of these factors it is necessary to produce de-rating curves for each pole variant. This de-rating curve is specified in the standard IEC 60512 part 3. De-rating curves are plotted for each contact carrier combination with the current being carried simultaneously by all contacts. These graphs show the heat rise generated as the current is increased.
The red line indicates the direct correlation between current applied and the measured temperature rise within the connector. The dotted blue line shows rated current and the green line is derived by applying a factor of 0.8 to the original plot data to give a de-rating curve. The dashed blue line shows the rated current.

The shaded area under the 0.8 curve shows the permitted operating area, and allows safe current vs ambient temperature characteristics to be determined.

—— = tested operating limits
—— = de-rated operating limits
- - - = rated current

7000 Series Current vs. Temperature Characteristics

2 Pole, Plastic Body, Screw Terminal, 6.0mm² wire
current applied through all pins simultaneously

7000 Series Current vs. Temperature Characteristics

3 Pole, Plastic Body, Screw Terminal, 4.0mm² wire
current applied through all pins simultaneously

7000 Series Current vs. Temperature Characteristics

6 Pole, Plastic Body, Screw Terminal, 1.0mm² wire
current applied through all pins simultaneously

7000 Series Current vs. Temperature Characteristics

10 Pole, Plastic Body, Crimp Terminal, 18 AWG wire
current applied through all pins simultaneously

7000 Series Current vs. Temperature Characteristics

32 Pole, Plastic Body, Crimp Terminal, 22 AWG wire
current applied through all pins simultaneously
