

Ultra-small Rack/Panel Crimp Connectors

QR/P15 Series

Overview

Expansion of the proven QR/P Series with a separate panel-mounted plugs / receptacles connecting with detachable crimp terminated connectors.

Plugs / receptacles can be mounted on the panels and the terminated connectors may be inserted at later time, allowing wire crimp termination to be done away from the equipment.

Available in 8 or 24 positions (with 4 positions for power contacts) and 40 positions.

Features

1. Fully terminated connectors (crimp contacts) can be inserted / removed from the panel mounted plugs/receptacles. Polarization assures correct orientation, preventing incorrect insertion of the connectors in the module.
2. **Sequenced contact mating (40-position only)**
The protection of the circuit is assured by having the 4 contact at each end of the receptacle protrude forward by 0.8 mm, with electrical wipe of 4.0 mm.
Remaining contacts electrical wipe is 3.2 mm.
3. **Accepts power supply connections (24-position only)**
The 24-position connectors incorporate power supply contacts. The power supply connections use an MDF6 Series 4-position connector (3.5 mm pitch, UL and CSA recognized, and can handle 6A a current using AWG #16 conductors.
4. **Reliable connections.**
Two-point contacts assure highly reliable electrical and mechanical connection.

● Separate connection to panel-mounted connectors

Applications

PPC, data communications equipment, automatic vending machines, measuring instruments and other applications requiring small rack-and-panel connectors.

QR/P15 Series Ultra-small Rack and Pinch Connectors

Specifications

Ratings	Current rating	Signal: 1 A Power: 6 A	Operating temperature range:-10°C to +60°C
	Voltage rating	30V AC, DC	

Item	Specification		Conditions
1. Insulation resistance	1,000 MΩ min.		500 V DC
2. Withstanding voltage	No flashover or insulation breakdown		500 V AC / 1 minute
3. Contact resistance	50 mΩ max.		100 mA
4. Mating/ Unmating forces	8 pos.	0.8 N min. 8 N max.	Measured when mated with corresponding connector
	24 pos.	2.8 N min. 28 N max.	
	40 pos.	4.0 N min. 40 N max.	
5. Durability	Contact resistance: 60 mΩ max.		1,000 cycles No damage, cracks or parts dislocation.
6. Vibration	No electrical discontinuity of 10 μs or longer		Frequency: 10 to 55 Hz, single amplitude of 0.75 mm, 3 directions for 2 hours No damage, cracks or parts dislocation.
7. Shock	No electrical discontinuity of 10 μs or longer		Acceleration of 490 m/s ² , 11 ms duration, sine half-wave, 3 cycles in each of the 3 axis No damage, cracks or parts dislocation.
8. Temperature cycle	Contact resistance: 60 mΩ max. Insulation resistance: 1,000 MΩ min.		No damage, cracks or parts dislocation. Temperature: -55 → +5 to 35 → +85 → +5 to 35 °C Time: 30 → 5 → 30 → 5 min. 5 cycles
9. Humidity (Steady state)	Contact resistance: 60 mΩ max. Insulation resistance: 1,000 MΩ min.		No damage, cracks or parts dislocation. 96 hours at 40°C, R.H. 90% to 95%
10. Hydrogen sulfide	Contact resistance: 60mΩ max.		96 hours at a concentration of 3 ppm

Materials / Finishes

●Plug

Part	Material	Finish	Remarks
Insulator	PBT	Color: Black	UL94V-0
Contacts	Phosphor bronze	Selective gold plated	—
Pin socket	Polyamide	Color: Black, white (Natural)*	UL94V-0
Shoulder Screw	Steel	Nickel plated	—

●Receptacle

Part	Material	Finish	Remarks
Insulator	PBT	Color: Black	UL94V-0
Contacts	Phosphor bronze	Selective gold plated	—
Pin socket	Polyamide	Color: Black, white (Natural)*	UL94V-0

*Insulator bodies for the MDF6 connectors in the 24-position power supply connector will be white.

Ordering information
