

## 92mm Fan Filter Media, 45ppi SC92-M45/5

This 45ppi (pores per inch) fan filter media is sold as a pack of five for 92mm cabinet cooling fans. Constructed of polyurethane fibers, this fan filter media is resistant to heat and keeps your cabinet cool. Prevent harmful dust accumulation which causes fans to fail and potential overheating damage to system electronics and appliances. GardTec offers an exclusive discount when you purchase this fan filter media in bulk! Check out more fan filter media included in our [cabinet cooling fan kits](#).

Media: Polyurethane Foam UL94HF-1
