## Security Key Insert - SK-51632

Designed with a double-ended hex adapter for two sizes of pin-in-head security fasteners. Simply slip the key into the 3/8" side of a can wrench and you are ready for either a 5/16" or 5/32" hex security screw.

The 5/16" side of the SK-51632 is used on tamper-proof cross-connect cabinets, MESA, CATV closures and any other closure that requires a 5/16" tamper proof hex tool to gain access

This is a reversible insert tool. One end is for SLC Cabinets and the other is for most Network Interface Boxes.

Part No.	Description
SK-51632	Security Key Insert
