

## SmartRack 4U Low-Profile Vertical-Mount Switch-Depth Wall-Mount Rack Enclosure Cabinet

MODEL NUMBER: **SRWF4U**

Wall-mount cabinet secures and organizes 4U of 19-inch rack equipment in network wiring closets and other locations with limited floor space. Houses equipment up to 20 inches deep, but extends just 8 inches from wall.

### Description

The SRWF4U SmartRack 4U Low-Profile Vertical-Mount Switch-Depth Wall-Mount Rack Enclosure Cabinet is designed to house EIA-standard 19-inch rack equipment in network wiring closets, retail locations, classrooms, back offices and other areas with limited floor space where you need equipment to be secure, organized and out of the way. Constructed from heavy-duty steel with a durable black powder-coated finish, the cabinet has a maximum load capacity of 150 pounds.

Because the low-profile cabinet mounts vertically, it extends only eight inches from the wall while housing equipment up to 20 inches deep, including network switches and patch panels. In addition to 4U of rack space in the primary mounting area, it also includes a slide-out 2U mounting bracket at the top of the enclosure for patch panels up to 2.5 inches deep.

The top panel and front door lock securely to help prevent damage, tampering or theft. The cabinet is vented, which allows air to flow freely and keep equipment cool. The reversible front door can open left or right. Convenient top and bottom ports allow easy cable routing.

The SRWF4U comes fully assembled and ready to mount to the wall. Equipment installation is easy with threaded mounting holes and hardware that support M6 or 12-24 mounting.
